PROFESSIONAL SUMMARY

Software Development student completing a Bachelor of Science in Software Development with hands-on experience in programming, automation, network diagnostics, and cloud technologies. Skilled in Python, Java, Git, Linux, AWS, APIs, and troubleshooting technical systems. Passionate about software engineering, cybersecurity, cloud infrastructure, DevOps, and gaming technology. Known for analytical problem-solving, continuous learning, and building solutions that improve efficiency, reliability, and user experiences.

TECHNICAL SKILLS

Programming Languages
Python • Java • JavaScript • SQL • HTML • CSS
Tools & Technologies
Git • GitHub • Docker • AWS • Linux • Wireshark • Npcap • REST APIs • JSON
Technical Areas
Software Development • Backend Systems • Automation • Cloud Computing • Cybersecurity • Networking • System Troubleshooting • DevOps Fundamentals • Data Integrity

PROJECTS

Network Integrity Analyzer

Python | Networking | Data Analysis

- Developed a Python tool to analyze packet-loss trends and monitor network performance.
- Automated data collection and reporting using CSV processing and visualization techniques.
- Applied networking concepts and packet analysis using Wireshark and Npcap.
- Built visual reports to assist troubleshooting and performance monitoring.

Discord Automation Platform

Python | APIs | Automation

- Built and maintained automation workflows using third-party APIs.
- Implemented content filtering and permission-management systems.
- Improved reliability and information delivery through automated monitoring.
- Applied troubleshooting and secure configuration practices.

Portfolio Website

HTML | CSS | GitHub Pages

Portfolio: kornykornzz.github.io/rivamber.github.io

- Designed and deployed a professional portfolio website using GitHub Pages.
- Maintained source control through Git and GitHub workflows.
- Showcases technical projects, skills, education, and professional growth.

Automated File Organizer

Python | Automation

- Developed a Python utility to automatically organize files into categorized directories.

- Improved workflow efficiency by reducing manual file management tasks.
- Utilized scripting concepts to automate repetitive processes.

TECHNICAL EXPERIENCE

Software Automation & Development Projects

2024 – Present

- Developed Python scripts to automate data collection, validation, and workflow tasks.
- Utilized APIs and automation techniques to streamline information management.
- Performed network diagnostics using Wireshark and Npcap.
- Investigated latency, connectivity, and packet-loss issues through packet analysis.
- Applied Git version-control practices and software development methodologies.

PROFESSIONAL EXPERIENCE

Caretaker & Household Operations Coordinator

Kenosha, WI | 2012 – Present

- Managed budgeting, scheduling, logistics, and daily operations for a household.
- Coordinated appointments, long-term planning, and resource management.
- Solved operational challenges through organization, prioritization, and communication.
- Maintained documentation and managed multiple responsibilities simultaneously.

Warehouse Associate

Uline | Pleasant Prairie, WI | 2019 – 2020

- Maintained inventory accuracy and quality standards in a fast-paced environment.
- Assisted with documentation, tracking, and process efficiency initiatives.
- Collaborated with team members to meet production targets.

Fulfillment Associate

Amazon Fulfillment Center | Kenosha, WI | 2015 – 2018

- Processed inventory while maintaining operational accuracy.
- Supported inventory integrity and quality-control procedures.
- Worked effectively within performance-driven environments.

Team Lead

Kmart | Kenosha, WI | 2012 – 2014

- Assisted customers, resolved issues, and supported store operations.
- Coordinated daily team responsibilities and merchandising activities.
- Developed leadership, communication, and customer-service skills.

EDUCATION

Bachelor of Science in Software Development

Herzing University Expected Graduation: 2026

Relevant Coursework: Software Engineering, Database Systems, Web Development, Data Structures, Programming Fundamentals, Systems Analysis and Design

---

Planned Graduate Study

Master of Science in Computer Science Anticipated Start: 2026

CERTIFICATIONS

- AWS Cloud Practitioner (Planned)
- Microsoft Azure Fundamentals AZ-900 (Planned)

- CompTIA Security+ (Planned)

AREAS OF INTEREST

Software Engineering • Backend Development • Cloud Engineering • DevOps • Site Reliability Engineering (SRE) • Cybersecurity • Platform Engineering • Game Services • Gaming Infrastructure • Anti-Cheat Technologies
